CALL FOR PAPERS

Investigative Radiology announces a special issue on ‘**Clinical Advances with 7 Tesla**’ scheduled for publication in early 2014.

The focus of this special issue will be placed on substantial advances in the field of clinical studies at 7 Tesla in all organ systems and disease categories, but in principal also being open to major technological breakthroughs. Clinical advances may include both, characterisation of fundamental disease mechanisms as well as systematic patient studies.

The deadline for submission is **June 30, 2013**. Papers submitted after this deadline cannot be considered. All papers will be subject to peer review by experts in the field and must comply with the Journal’s Instructions for Authors.

Stefan O. Schoenberg, MD
Editor, Special Issue

Zang-Hee Cho, MD, Jutta Ellermann, MD, Mark Ladd, PhD, Neil Rofsky, MD,
Brian Rutt, PhD, and Mark van Buchem, MD
Guest Editors

In addition to the special issue editors, Eric M. Walser, MD, assisted in early preparations for this special issue.
